Program

**If the volunteer comes from the United States, here is the website where the process is all documented: <http://www.maliembassy.us/visas> and of course we are available for support
For the case of other countries they should check with us if a consulate is available in their countries (https://www.embassypages.com/mali_fr here is the list of Malian representation in other countries) .

*** Once the visa is issued, the volunteer should send us a copy, and in case of a refusal send us the reference of the application so we could see how to manage.
